EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ms. Michelle Heller on Dec. 21, 2005. Enter the following:

a. Delete claims 7-13 and 15.

b. In claim 4 (line 2) replace the phrase "comprising a pharmaceutically acceptable carrier" with --a pharmaceutically acceptable carrier--.

c. In the first paragraph of the specification, insert

-- This application claims the benefit of U.S. Provisional Application No. 60/459,744, filed 04/02/2003. --

Reason for Allowance

2. Claims 1-4 are allowed. The examiner did not raise an obviousness-type double patenting rejection over claims 1 and 12-15 of the copending application 10/839,051, since the obviousness-type double patenting rejection was made in the later filed copending application 10/839,051. According to MPEP 804:

Art Unit: 1624

"If 'provisional' ODP rejections in two applications are the only rejections remaining in those applications, the examiner should withdraw the ODP rejection in the earlier filed application thereby permitting that application to issue without need of a terminal disclaimer. A terminal disclaimer must be required in the later-filed application before the ODP rejection can be withdrawn and the application permitted to issue."

Accordingly, there is no need to raise an obviousness-type of double patenting rejection in this case.
